			Au	Pt	Pd	Rh	Ru	Ir	Os					Au	Pt	Pd	Rh	Ru	Ir	Os								

\* A true copy of this register for each quarter (Q) of a calendar year must be submitted to the Regulator by 15 April for Q1, by 15 July for Q2, by 15 October for Q3 and by 15 January for Q4)

Important: Read the guidelines before completing this form

1. Record date of unwrought metal transactions and record month of semi-fabricated metal transactions
2. Name, address and license, permit, certificate or registration number of the seller /buyer. If metal is exported/imported please state so
3. Form and gross mass in grams or kilograms of precious metal bought/received (e.g. 2g of 18 ct white gold wire, 3g of 9ct gold bar, 6g of scrap etc.)
4. Fine mass/weight: the mass of the precious metal contained in the article/product, as determined by multiplying the gross weight of the article/product by its caratage divided by 24 or fineness divided by a thousand. e.g. for an 18 ct gold alloy weighing 1gram, the fine mass of gold in the alloy is calculated like this:  $1g \times \frac{18}{24} = 0.75g$
5. Delete whichever units that are not applicable (i.e. units not used)
6. Price is the amount of money (if any) received during the transaction. Price is only recorded for unwrought precious metal transactions
